

SWORD POWERS SUNGARD BANCWARE TO HEAD THE FIELD IN OPRISK INDUSTRY RANKING

- SunGard BancWare powered by SWORD Ranked Number 1 in 4 out of 5 Categories by Industry Peers
- Number 1 Overall in "OpRisk & Compliance" Ranking for 2007

Dublin Ireland, May 3rd 2007 – **SWORD, Ci3's** flagship operational risk management solution for the global financial industry, has powered **SunGard's BancWare** straight to the Number 1 position of the prestigious annual risk industry ranking by industry bible **Operational Risk & Compliance** Magazine. **SWORD** supplies the operational risk components of SunGard's **BancWare** offering.

SunGard BancWare powered by SWORD swept the boards at the ranking which is published in the May 2007 issue of Operational Risk & Compliance magazine, winning Number 1 position in four of the five operational risk categories, and Number 1 overall. The categories it achieved a Number 1 ranking were as follows:

- Scenario Analysis Functionality,
- Operational Risk Loss Data Collection,
- Key Risk Indicators, and
- Risk and Controls Self Assessments (RCSAs).

"The Number One Ranking for SunGard BancWare powered by SWORD by Operational Risk & Compliance Magazine confirms SWORD as the leading operational risk management solution for the financial services sector", says **Seamus O'Farrell ceo Ci3**. "To be ranked number one with SunGard BancWare in four of the five categories in a poll of industry peers and risk solution end users is as strong an affirmation of SWORD's functionality and performance as one could wish to have," he says.

SWORD was also recently ranked in Gartners 'Magic Quadrant' as well as winning RISK Magazine's Loss Recording ranking for the third year in a row in December 2006.
